Packlistly

Export documents from one order, checked before they ship

Invoice, packing list, labels and certificates are typed again for every shipment, and a carton or weight difference is found at the dock or at customs.

What Packlistly does

1. Upload the order (Excel, CSV or your template) or type it once

2. Get the commercial invoice, packing list, carton labels, marks, CO, SLI and more from the same data

3. Quantity, carton and weight differences are shown before you download

Team and control

Paid team workflows offer roles and independent approval. Revisions record changes, user and time. Commercial invoices and packing lists support bilingual English/Spanish labels.

Plans per company (USD / month)

Plan	Price / month	Shipments / month	People
Free	$0	3 free (max 5 total)	1
Starter	$29	50	3
Expert	$59	300	10
Pro	$129	1,000	20
Enterprise	$599	3,000	50

14-day trial on paid plans, no card, no automatic renewal. Prices in USD; applicable taxes are shown at checkout via Paddle.

Security

HTTPS; authenticated encryption for new and updated company records. Company access is checked on the server. No SOC 2 report or independent audit.
